PROGRAM DESCRIPTION

The ATC in Gerontological and Rehabilitative Nursing Care will enhance the nurse's knowledge and skills in the principles needed for providing expert nursing care for the aging population with a rigorous review of relevant material. There will be a strong emphasis on physiology and evidence based practice. Courses will be blended with distance education, classroom presentation, and on-site in the Nursing Skills Lab. Application of theory and promotion of critical thinking will be supported through the use of realistic case scenarios in the lab. Human patient simulators will provide real life experiences. A capstone clinical course in a geriatric clinical unit will allow the nurse to apply new and refined knowledge in the clinical setting.
