**Student club to hold  
free computer clinic in Elkhorn**

Gateway Technical College's student chapter of the Association of Information Technology Professionals will hold a free, PC-based computer clinic 9 a.m. to 2 p.m. January 18 in Room 112 at the college's Elkhorn Campus, 400 County Road H, Elkhorn.

Computers can be dropped off 9 a.m. to noon.

AITP members will diagnose PC computer problems and fix them to the best of their ability. Those bringing in computers can either watch the entire troubleshooting process with the student, or drop of the computer and pick it up later in the event. While the event is free, donations are appreciated.

There is a two-computer limit per person, and attendees should not bring the mouse, keyboard or monitor. Computers will be worked on in a first-come, first-served basis.

The event allows students to give back to the community while honing the skills they will use once they enter their career.

Gateway Technical College collaborates with communities in Kenosha, Racine and Walworth counties to ensure economic growth and viability by providing education, training, leadership and technological resources to meet the changing needs of students, employers and communities.
