**Gateway connects job-seekers
and employers at annual health care fair**

Gateway Technical College will hold its annual Healthcare Job Fair, 10 a.m. to 2 p.m. Oct. 24, providing students and the public a way to launch their career – as well as employers a way to tap into local talent.

The event will be held at the Madrigrano Auditorium, located in the Conference Center of Gateway Technical College's Kenosha Campus, 3520-30th Ave.

Several of Southeastern Wisconsin's major health care providers and local health agencies will be at the event, as well as several four-year colleges seeking Gateway graduates and others who want to continue their education and earn a bachelor's degree. The public is invited to attend.

The fair represents a way for those looking to land a job in the health care field to get solid leads and career guidance by talking directly to those who hire for their individual companies.

Applicants should make sure to bring cover letters and resumés – applications will be accepted on-site by some of the health care employers. The event is free and open to the public.

For more information on the event or to register for an employer's booth,
contact Sheri Eisch at (262) 564-2720.

Gateway Technical College collaborates with communities in Kenosha, Racine and Walworth counties to ensure economic growth and viability by providing education, training, leadership and technological resources to meet the changing needs of students, employers and communities.
