

Check out the Youth CNC Bootcamp!

Do you want to...

- do something different?
- make money while in school?
- make parts that go into cars, telecommunications equipment, military vehicles, medical devices, motorcycles and more?
- graduate early and earn college credits while in high school?
- prepare for a high-demand career before graduation?
- take advantage of \$4,000 worth of training at NO COST to you or your parents?

Are you...

- motivated and dedicated?
- at least 17 years old?
- entering your senior year of high school in the Fall of 2014?

If so, take this first step toward a career as a CNC computer programmer, plant manager, laser cutting machine operator, robotics machine operator or machine maintenance technician.

Check out the Youth CNC Boot Camp!

CNC operators run super-accurate, computer-controlled tools to mill, shape and grind metal into precise shapes.

When are classes?
