

J-114 ACADEMIC INTEGRITY

POLICY

Academic integrity is submitting one's own work and properly acknowledging the contributions of others. Any violation of this principle constitutes academic dishonesty and is liable to result in a failing grade and disciplinary action. Gateway places the highest value on delivery a quality learning experience for all students. The learning experience requires trust between faculty and students, and adherence to standards of academic honesty and integrity. To avoid academic misconduct, it is important that students understand how it is defined and what is expected of students. It is also important that students know their rights when an allegation of academic misconduct is made. Every member of the college community has the right to expect that all students will be graded fairly, and every member of the college community has rights of due process if accused of academic misconduct.

Academic Misconduct includes but is not limited to: (These definitions apply to all academic work, including but not limited to all exams, essays, homework, performances, computer programs, projects, labs, tutoring, and the like.)

Use of Artificial Intelligence (AI)

At Gateway, we acknowledge the growing use of Artificial Intelligence (AI) in various fields and for general use. While we encourage faculty and students to explore AI, we require that they adhere to this policy on the ethical use of this emerging technology.

1. Students must cite AI or include a note explaining how much and in what ways their work was AI-generated. For a formal citation, use the following format: AI Tool Name. (YYYY, Month DD of query). "Text of your query." Generated using AI. www.AI.tool.url.com
2. Students must check any AI content for accuracy and bias. Students are responsible for any inaccurate or biased information.
3. Students are responsible for producing quality work. Poor prompts and inadequate adaptation of AI-produced texts result in poor-quality work.
4. Students must not use AI to cheat or plagiarize by turning in an AI-generated text as original work. Students submitting an assignment using AI without proper disclosure constitutes academic misconduct.
5. Students must adhere to the instructor's policies on using AI-generated content in their work. Instructors may prohibit or limit the use of AI on specific assignments or projects.
6. It is the student's responsibility to save and keep the complete transcripts and conversations (recordkeeping) generated using AI. The instructor may request the information to evaluate an assignment.
