

Associate of Science Courses by Category

- Students must earn a minimum number of credits in each category, listed below, and earn a total of 60 credits in order to be conferred the degree.
- A minimum 2.0 cumulative G.P.A. and a minimum grade of 'C' or better for each course is required for graduation.
- Although some courses are listed in more than one category, courses may only be applied toward one category. Once the course is applied to a specific category, it cannot be applied to a second category.
- Additional course offerings are available through outside institutions, including UW-Parkside. Courses completed at other institutions may transfer in and be applied toward select categories. See your academic advisor for more information.
- 890-155 Gateway to Success must be taken within the first semester.
- All courses listed below may also serve as elective courses for this program. Additional elective courses that are accepted for this degree are listed at the end.
- If a student intends to transfer this degree to another institution, it is the student's responsibility to ensure they are selecting appropriate courses for transfer into their intended major. Reach out to your intended transfer institution for more details regarding their transfer policies prior to enrolling in courses at Gateway. Additionally, Transferology can be used to verify transfer credits. You can create a free account at <https://www.transferology.com/index.htm>
