**Tremper students capture top honor
at Gateway's Sumobot competition**

The Tremper team from Tremper High School captured the top spot at Gateway Technical College's SumoBot competition held in May at the college's SC Johnson integrated Manufacturing and Engineering Technology Center in Sturtevant.

Randall School's Gearheads (Burlington) took second while the Diesel Doggos (Elkhorn Area High School) took third place.

Organizers say the event provides a way for students to explore engineering design from start to finish while having fun.

Gateway Technical College's mission is to deliver industry-focused education that is flexible, accessible and affordable for our diverse community. The college collaborates with communities in Kenosha, Racine and Walworth counties to ensure economic growth and viability by providing education, training, leadership and technological resources to meet the changing needs of students, employers and communities.
