**Gateway asks public to provide  
input on selecting new president**

Gateway Technical College is encouraging members of the public to provide feedback – to be used in the selection of a new president for the institution – at community focus groups held via Zoom noon Nov. 24 and 6 p.m. Nov. 25.

Those wishing to participate can find details on how to join a Zoom session at [www.gtc.edu/presidential-search](http://www.gtc.edu/presidential-search). In addition, those unable to attend a listening session are encouraged to consider providing feedback online through a survey located at that same webpage.

The Gateway Technical College Board of Trustees and members of the presidential search consulting firm are interested in learning various views about the challenges and opportunities at the college as well as the characteristics they should seek in a new president.

Input gained from the sessions will be used to help guide the search including the development of a presidential profile that will be used by the consulting firm with prospective candidates.

Gateway Technical College's mission is to deliver industry-focused education that is flexible, accessible and affordable for our diverse community. The college collaborates with communities in Kenosha, Racine and Walworth counties to ensure economic growth and viability by providing education, training, leadership and technological resources to meet the changing needs of students, employers and communities.
