

2026-2027 Certificate

Certificate: **MICROSOFT DATA CENTER CERTIFICATE (90-150-4)**

Credits: **12 Credits**

Description: The Datacenter Certificate equips students with the skills and knowledge necessary to perform support, maintenance, monitoring and troubleshooting tasks in a datacenter environment. Students will become well-versed in operating systems and hardware for networks and servers, preparing them for entry-level positions in the IT industry; particularly within datacenter operations. Upon completion, students will be prepared to complete industry-standard certifications.

Related Program: IT Network Specialist

The sequence shown is the recommended path to completion. Courses will be scheduled in the terms indicated here.
All courses should be taken in the order shown to help you stay on track and graduate according to your academic plan.
Courses in this program may be offered in a variety or combination of formats (for example: in-person, video conferencing, online, etc.).
