

2020-2021 Certificate

Certificate: MATERIAL TESTING INSPECTOR (61-607-1)

Credits: 9 Credits

Description: The Material Testing Inspector certificate is designed to provide first year students with the skills needed to obtain an entry level position as a Material Testing Inspector, developing their abilities to engage in quality control or quality assurance activities related to highway work. Students will develop the understanding of conflict resolution and skills required for entry level inspection work related to the sampling and testing of construction materials.

Related program: Civil Engineering Technology – Highway Technology

Campuses Available: SC Johnson iMET Center and Elkhorn Campus
