

2022-2023 Certificate

Certificate: HORTICULTURE BASICS (61-001-4)

Credits: 9 Credits

Description: Horticulture Basics introduces the learner to the field of horticulture, including landscaping and greenhouse/nursery production. Completers will gain a broad understanding of the science of horticulture and begin to acquire a broad understanding of plant identification, propagation and production, soil and plant nutrition, pests and beneficial insects, and sustainable landscapes.

Related Program: Greenhouse Operations

The sequence shown is the recommended path to completion. Courses will be scheduled in the terms indicated here.

All courses should be taken in the order shown to help you stay on track and graduate according to your academic plan.

Courses in this program may be offered in a variety or combination of formats (for example: in-person, video conferencing, online, etc.).
