

2022-2023 Certificate

Certificate: **MECHANICAL MAINTENANCE TECHNICIAN (61-620-3)**

Credits: **10 Credits**

Description: This certificate supplies the basic knowledge to become an entry-level maintenance and repair technician in a manufacturing facility. After completing the certificate, students will be able to work with and troubleshoot hydraulic, pneumatic, and mechanical systems. They will also be able to fabricate parts using manual machining and perform precision measurement.

Related Program: Electromechanical Maintenance Technician

The sequence shown is the recommended path to completion. Courses will be scheduled in the terms indicated here.
All courses should be taken in the order shown to help you stay on track and graduate according to your academic plan.
Courses in this program may be offered in a variety or combination of formats (for example: in-person, video conferencing, online, etc.).
