**Gateway Horticulture student
takes honors at national event**

Gateway Technical College Horticulture student Rachel Sullins took third place in an American Institute of Floral Designers' 2014 Student Floral Design competition as part of the institute's national symposium July 2 in Chicago.

Sullins took third in the Sympathy category, which called for students to create an arrangement in an urn or a vase. She was given one hour to complete her arrangement from a list of materials such as containers, flat wire, spool wire, ornamental materials, a bouquet holder, fresh flowers and "mechanicals" such as glue, tape, ribbon and coils of glitter sticks.

The Sympathy category was one of four categories of which students could compete.

Sullins, from West Allis, takes courses on the Kenosha Campus.

Gateway Technical College collaborates with communities in Kenosha, Racine and Walworth counties to ensure economic growth and viability by providing education, training, leadership and technological resources to meet the changing needs of students, employers and communities.
