**Gateway to hold pre-Celebrate Earth Day
permaculture event**

Gateway Technical College will offer a precursor to its Celebrate Earth Day event a couple days early by hosting the Permaculture Initiative of Kenosha event 5 p.m. to 8 p.m. April 19 at the Pike Creek Horticulture Center on the college's Kenosha Campus, 3520-30th Ave.

"The group is focused on promoting permaculture in the community – beginning with our own yards," said Kate Field, Gateway Horticulture instructor and certified permaculture designer. "Our aim is also to form friendships with like-minded folks and have fun."

The event schedule includes a tour of the horticulture center and a general meeting to discuss summer activities, which include creating pollinator way stations.

For more information, contact Kate Field at fieldk@gtc.edu.

Gateway Technical College collaborates with communities in Kenosha, Racine and Walworth counties to ensure economic growth and viability by providing education, training, leadership and technological resources to meet the changing needs of students, employers and communities.
