**Gateway Horticulture program
to hold plant fair**

Gateway Technical College's Horticulture students will hold a plant fair 10 a.m. to 2 p.m. Oct. 14 at the Pike Creek Horticulture Center on its Kenosha Campus 3520-30th Ave.

The event will feature a plant sale with familiar and rare plant varieties. Ready-to-plant bulbs will be available as well. This event is community-focused, providing information and resources related to native and specialty plants. Horticulture professionals will be on site to answer any plant-related questions, and attendees are encouraged to show photos along with their questions.

All sales go directly to the Gateway Green Thumbs student club to help students attend industry-related conferences and training.

Gateway Technical College's mission is to deliver industry-focused education that is flexible, accessible and affordable for our diverse community. The college collaborates with communities in Kenosha, Racine and Walworth counties to ensure economic growth and viability by providing education, training, leadership and technological resources to meet the changing needs of students, employers and communities.
