**Gateway to hold informational workshops
for those interested in Promise program**

Gateway Technical College will hold two virtual workshops to guide interested high school seniors through the application process for the Promise program.

The program is an effort aimed at filling the gap between financial aid and the cost of tuition and fees so that eligible students can gain access to the life-changing impact of a college degree. Students in the program receive financial assistance, but also one-on-one support from the college to help them succeed in their studies and enter their career.

The deadline to apply for the Gateway Promise program for high school seniors is June 1.

Those who attend the session can learn about the Promise program in addition to being able to apply for admission to the college as well as financial aid.

Workshops will be held:

May 15, 9 a.m. to 11 a.m. To register and for more information:
