**Open house held for intense,  
innovative construction training program**

Gateway Technical College and WRTP/BIG STEP will hold an open house 5:30 p.m. to 7 p.m. June 5 at the college's SC Johnson integrated Manufacturing and Engineering Technology Center, 2320 Renaissance Blvd., Sturtevant, for those interesting in enrolling in a newly created road building training program.

The intense, 20-day program will be held 8 a.m. to 5 p.m. weekdays June 11 through July 3 at no charge to those who are accepted into the TrANS+ program. Completers will have the skills to be hired full-time at an area road building construction company in a very in-demand career field. They will also earn seven Gateway credits which they can then use toward earning an entire Gateway Civil Engineering Technology - Highway Technology degree.

TrANS+ represents an initiative between WTRP/BIG STEP and Gateway where three core classes from the Civil Engineering Technology program are incorporated with the training from WTRP/BIG STEP's TrANS program.

Gateway Technical College collaborates with communities in Kenosha, Racine and Walworth counties to ensure economic growth and viability by providing education, training, leadership and technological resources to meet the changing needs of students, employers and communities.
