**Gateway to hold popular Celebrate Earth Day
event in an online format**

Gateway Technical College will still hold its popular Celebrate Earth Day this year – but in a virtual format.

The impact of the COVID-19 pandemic and the statewide Safer At Home mandate caused Celebrate Earth Day events on the college's Kenosha Campus and Elkhorn Campus to be cancelled this year. However, Gateway still wanted to offer something for community members to engage in the environmental spirit of the events, so they were moved to the online format.

There will be some initial posts on the college's Facebook site about environmental practices April 20 and April 21. The official event will be posted April 22, also on Facebook, scheduled to begin at 8 a.m.:

<https://www.facebook.com/GatewayTechnicalCollege/>

Further details of the event will appear on the college's Facebook site starting April 15.

Gateway Technical College's mission is to deliver industry-focused education that is flexible, accessible and affordable for our diverse community. The college collaborates with communities in Kenosha, Racine and Walworth counties to ensure economic growth and viability by providing education, training, leadership and technological resources to meet the changing needs of students, employers and communities.
