Gateway is committed to providing quality occupational training. Every fall Gateway surveys graduates from the previous school year to obtain information about employment status, salary levels, job location, and satisfaction with training.

The Graduate Follow-Up Study provides valuable information about the successes of Gateway’s graduates. Data from the study and graduate comments are used to improve Gateway’s programs and services. In addition, it is an important source of information for current and prospective students, counselors, and employers.

**Survey Highlights**

The 2006 Graduate Follow-Up survey was mailed to 1,745 associate degree and technical diploma graduates. A total of 1,403 graduates responded to the survey for a response rate of 80 percent. The following are highlights:

- 96% are satisfied with their Gateway training
- 91% have jobs within six months of graduation
- 66% are employed in their field of training
- The average full-time wage is $15.51 per hour

**Notes**

- For purposes of this report, full-time employment is defined as 35 hours or more per week.
- Wages are reported only for those programs in which 2 or more respondents provided salary information. Wages are reported before deductions.
- While salaries in this report generally reflect entry-level wages, 17 percent of those employed related to their field of training were already employed prior to attending Gateway and have maintained that job.
- Double majors are reported in only one program.
Graduate Profile

LOCATION OF EMPLOYMENT
(Employed-related graduates)

87 Employed Out of District in Wisconsin
246 Employed Out of State
